Detailed information about the events

Monday

12:00-13:30

August 1

Cooking Session with Sky

by Skyisblu

Guild of Caterers Hood

There is nothing that screams summer more than garden tomatoes, and no better way to celebrate juicy ripe tomatoes than to enjoy them as is, in a beautiful Nice-inspired salad.

Join skyisblu in the 'Guild of Caterers Hood' and on Twitch to learn how to make 'Salade Nicoise', a celebration of summer vegetables, and a classic French dish.

Video-stream: https://www.twitch.tv/skyisblu_is_me

How to get there: Via the Nexus, Public Links, Guild of Caterer's Hood

Monday

13:30-15:00

August 1

Eternal Evergreens

by Eternal Seeker

NDG Elonin

Eternal Seeker will sing Eternal Evergreens for us and there will also be a few "guided dances". If you do NOT want to be integrated into the dance, please let Minasunda know and she will put you on the ignore list for the duration of the event. The event will take place in Elonin, in the room with the stained glass windows. There is plenty of space to sit or dance.

Music-stream: <http://www.urutunes.com/Seeker>

How to get there: say to **NDG elonin** to Mir-o-Bot.

Tuesday

13:00-14:30

August 2

Cone Race

by PodHopper

PodHopper's Hood

A new kind of contest that is played in 2 rounds. The objective is to bring as many cones as you can into the fountain in 60 seconds.

Players are allowed to re-arrange the cones any way they like before the timer starts, as long as none of the cones cross the stairs.

Only cones that are in the water will count. Resting on the border of the fountain (without touching the water) does not count.

In the first round players start in the passage leading to the linking book room. After all players have finished, the second round starts at the balcony with the telescope. The result of each round is added together to give the player's total score and the player that has brought most cones into the fountain wins.

The green area on the map on the left shows the best place to view the event (spectators).

For more information contact PodHopper in Moula (#7116825) or on Discord (#8133).

Tuesday

14:30-15:30

August 2

Beach Party by the Fountain

by Karel

Eder Tsogal in PodHopper's Hood

Karel will play some happy tunes for us.

Music-stream: <http://www.urutunes.com/Karel>

How to get there: Via the Nexus, Public Links, PodHopper's Hood, Eder Tsogal

Wednesday 14:00-16:00

August 3

Wall Game

by Dah'mpa

Mir-o-Bot's Gahreesen

The tournament will be divided into three different competitions:

- 1) 4-members team competition
- 2) 2-members team competition
- 3) Final Big Challenge

1) **4-members team competition**

Teams will compete in elimination rounds of wall games with 16 blockers.

2) **2-members team competition**

Teams will compete in elimination rounds of wall games with 12 blockers.

3) **Final Big Challenge**

Everyone present at the event will be invited to take part of this final game and will form two big teams. These teams will compete in a single wall game based on the same 20-blockers maze (previously created by me).

Anyone wishing to take part, contact Dah'mpa in Moola #11225300, or Darimpa#0125 in Discord for more information.

How to get there: say **to gahreesen** to Mir-o-Bot.

Thursday

12:00-13:00

August 4

A brief history of D'ni

by PodHopper

Mir-o-Bot's Cleft

This markergame was originally created by Ro. Shortly after he finished it, Mir-o-Bot changed the default link-in point in his cleft, causing the markers to start on the other side of the vulcano from where you arrive in the Cleft. I repositioned the markers to take the new arrival-point into account.

Each marker found will give a little bit of history about Atrus' family. Those who came to the last 2 Cavern tours (july & august) may remember some of these "titbits of information".

How to get there: say **to cleft** to Mir-o-Bot.

Thursday

16:00-17:30

August 4

Door Run

by Nosi La

Nosi La's Hood

There will be both a 5 player and a 2 player contest, all taking place in Eder Tsogal.

For the 5 players teams, a randomly selected hood will be chosen on the day. The 2 players teams will run in Eder Tsogal in PodHopper's Hood, so are able to practice beforehand.

All contestants and spectators are asked to gather in Nosi La's Hood at 16KI for important instructions before the games begin. Anyone wishing to take part, contact Nosi La on Facebook, Nosi La in Moula #9902277, or Nosila#5296 in Discord for more information.

Also, you can test your skills using Pod's door simulator at: <http://www.podhopper.dds.nl/spiraldoor>

How to get there: Via the Nexus, Public Links, Nosi La's Hood

Friday

13:00-14:30

August 5

Mysterium Concert

by Minasunda

NDG Elonin

“Much more than a music event”.

The concert will take place on the stage in Elonin. Uncle Rebus' large Persian carpet offers plenty of space for the spectators, so there is no need to climb on the furniture. A video will be recorded at the concert, excerpts of which will then be shown as a YouTube premiere at the MYSTERIUM.

As for the concert itself: it's NOT just a music stream. Minasunda managed to teach the Nulp Dance Group as musicians who play the appropriate instruments really skillfully and they are supported by 3 charming background singers. So the musical journey through the Myst ages will not only be a feast for the ears, but also a pleasure to watch.

After Music from Myst, Riven, Exile, Revelation, End of Ages and Uru we will hear and see three artists who many of you should be familiar with. The first is Olivier Maurey aka Piboc. He may be known to you for his beautiful Roonsehv music. Piboc will conduct a selection of his music. Our second special guest is Lillo Moon Minniti aka Lyllus. He is not only known for his beautiful miniatures that you can buy on Etsy Shop, but many will also know his 'D'ni Lament Song'. Lyllus will sing it for us. The third special guest is Phil Rounds aka Fil. He will ensure a great finale of the concert with his for MOULa adapted Peter Gabriel song "Shaking the Tree".

We would be very happy if many of you attend the concert – and you then find yourself on the video at the MYSTERIUM.

Music-stream: <http://www.urutunes.com/Seeker>

How to get there: say to **NDG elonin** to Mir-o-Bot.
